HOBBIES

ABOUT ME

I am driven, motivated, enthusiastic and committed young person. I enjoy working within a team environment, but using individual skills and a positive attitude to obtain the right results. I am an organised individual with a thorough approach and willingness to learn along with excellent ICT skills and a good knowledge of several software packages, including the Adobe Creative Cloud. I am an approachable character with a good sense of humour. I have a real passion and vision for working with multimedia and am continually looking to develop my skills. My commitment and knowledge of the software is extensive, built around my keen interest in developing a creative project. My main passions lie with video, photography and graphic design and I am familiar with modern equipment including the Sony FS7 and owning my own Sony A7s.

WORK EXPERIENCE

MULTIMEDIA APPRENTICESHIP

GLOUCESTERSHIRE ROYAL HOSPITAL - 2015-DATE

The main framework of my apprenticeship revolved around the creation and editing of various videos, these range from demonstration, creative and interview style videos. I also create various graphics for eLearning content using Adobe Illustrator and the design, construction and distribution of eLearning courses for the Trust through Adobe Flash, Animate and Articulate. My college work is based around IT Applications ranging from units specific to video software, multimedia software and understanding the potential of IT.

FILMING AND EDITING ASSISTANT

FURRY FEET TV - 2014

I conducted research, devised filming plans, conducted a film shoot and edited this footage. This final cut was promoted on their website. Also, worked on a Charity Awards Event and filmed and covered this event.

CUSTOMER ASSISTANT

HOMESENSE // 2013-2015

Customer sales, processing of products, maintenance activities, merchandising, customer service enquiries, shop floor assembly and organising of displays.
